Boltza® Quick-Release Clips: Swift installation is possible. Stamping the steel belt without holes can bring solid and continuous fastening force to the clamp. In addition, the steel belt's flanging design can protect the hose, eliminate the hidden danger of leakage, and increase the torque, which can meet urgent needs and make the work efficient—mainly used for quick conversions, such as duct seal and dust channel interface.

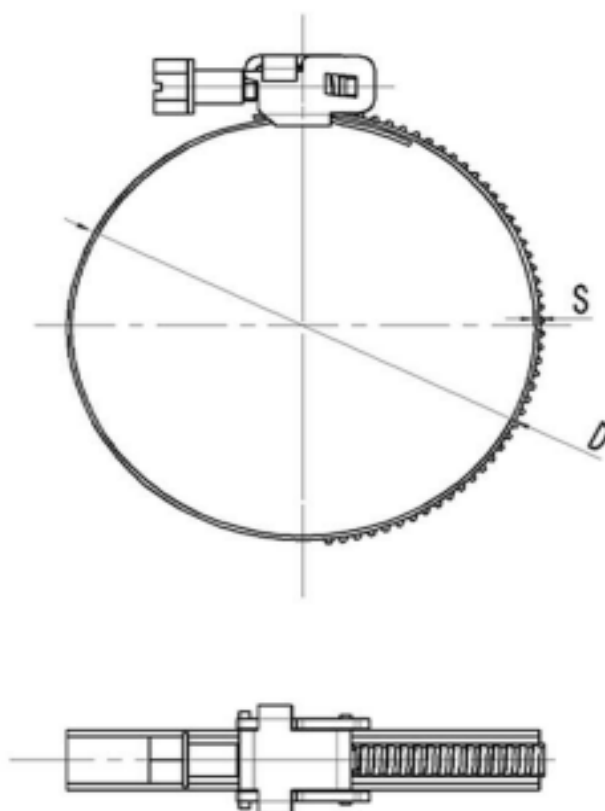

Product Specification:

- Material: W2 Stainless Steel (part)
- Fastening Type: Phillips
- Swift installation is possible
- Clamps are RoHS compliant

HS Tariff Code: 72201200
