Boltza® V Band Hose Clamp with Flanges

V band groove clamp can realize the fast and safe installation of the flange. This clamp has the characteristics of high torque and high sealing pressure. It is applied to seal flange joints: quick and convenient installation, small installation space required, high strength, and good sealing performance. The clamp can be made according to OEM specifications and accept customization. You can also select alloys that operate in harsh environments.

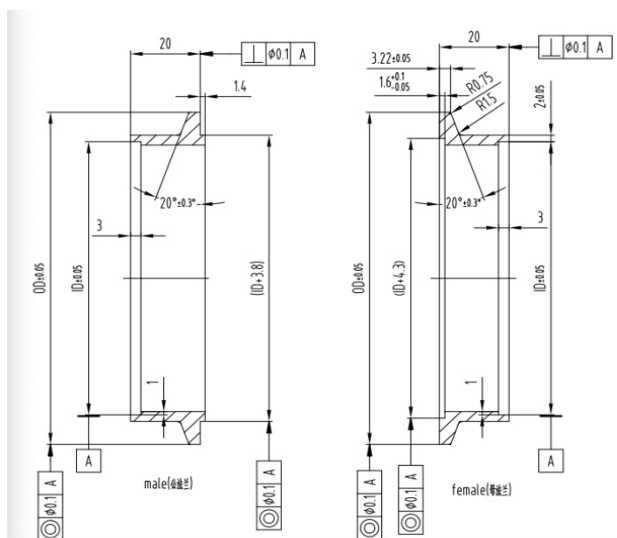

Product Specification:

- Material: Stainless Steel S3304 (W4)
- Fastening Type: HEX M10
- Non-Hazarduos Product
- Clamps are RoHS compliant

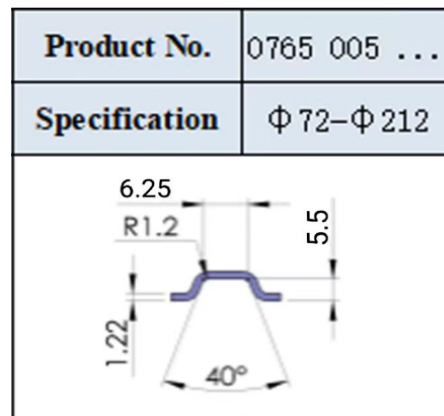

HS Tariff Code: 73269092
