Boltza® Single-Ear Clips: The O-Clips 304 Stainless Steel Air Water Hose Pipe Clamps are an easy and inexpensive way to keep your hoses from losing liquid, air, or gases. However, the fact that these clamps can be used on small-bore hoses means that the material of the tube or hose can sometimes be very flexible, making it more challenging to ensure a leak-tight assembly due to the possible deformation of the hose. In these cases, the inner ring is vital in helping to guarantee leak-tightness, protecting the hose from being pinched during assembly.

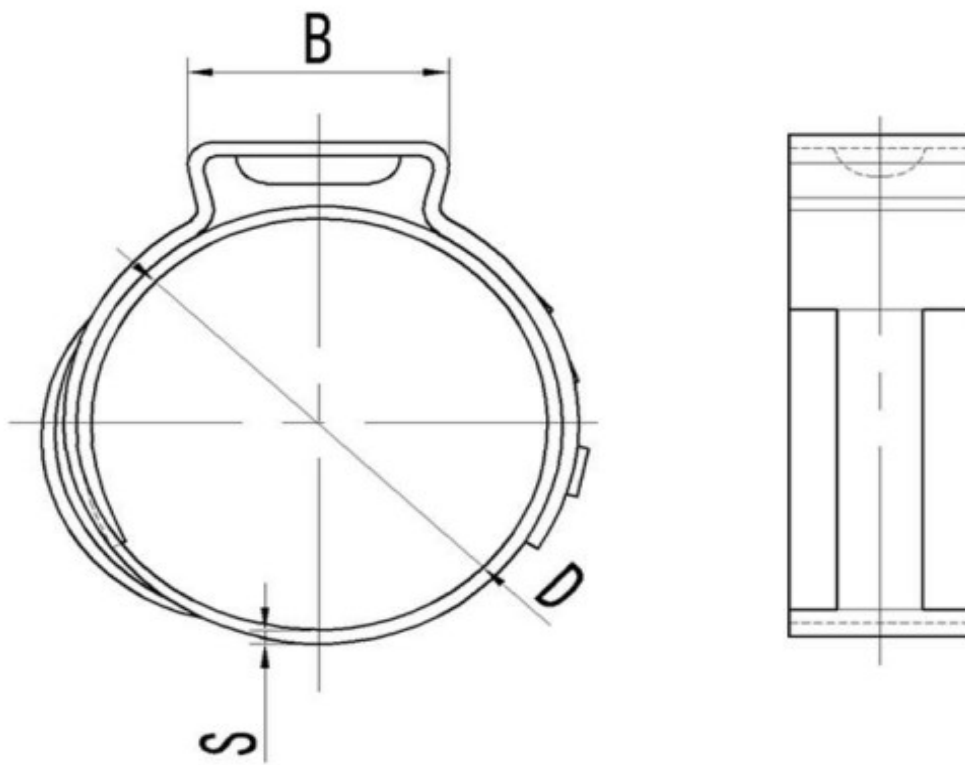

Product Specification:

- Material: W4 Stainless Steel
- Fastening Type: Special Tool (Pliers)
- Light weight, little interference
- Clamps are RoHS compliant

HS Tariff Code: 73269092
